-FFI part B

N-0636

“FEDS” Forcible Entry Door Simulator
(Lesson Plan, DVD)

Prop

P-0622

*Note – This prop is a life size door jam prop and is very heavy. For safety, make sure to have three or more folks to assist with the base of the prop. The prop is located in the training tower of the Redmond Fire Department.

The following guidelines are to keep an accurate account for materials within the Central Oregon Fire Instructors Association resource center:

- All materials must be logged in to the 3-ring binder checkout list.**
- Return materials back to the resource center as soon you are finished with them to make available for others.**
- All printed material must be replaced in the training kits.**
- Pre-printed student manuals are not to hand-out, they need to stay in the kits.**
- Any materials that are copyrighted must be abided by the copyright rules.**
- Damaged/lost materials or visuals aids must be reported to the C.O.F.I.A. officers as soon as possible.**

The Redmond Fire Department will be the site for the resource center. A resource room with shelves is available for C.O.F.I.A. training materials. Make sure to pre-arrange ahead of time for the use of materials. Please sign the resource material check out list with all the information required. The number to call is 541-504-5010 (Chief Hatch) or 541-504-5020 (Patty).
